The INTEGRATED SOLUTION

Junior 4.0

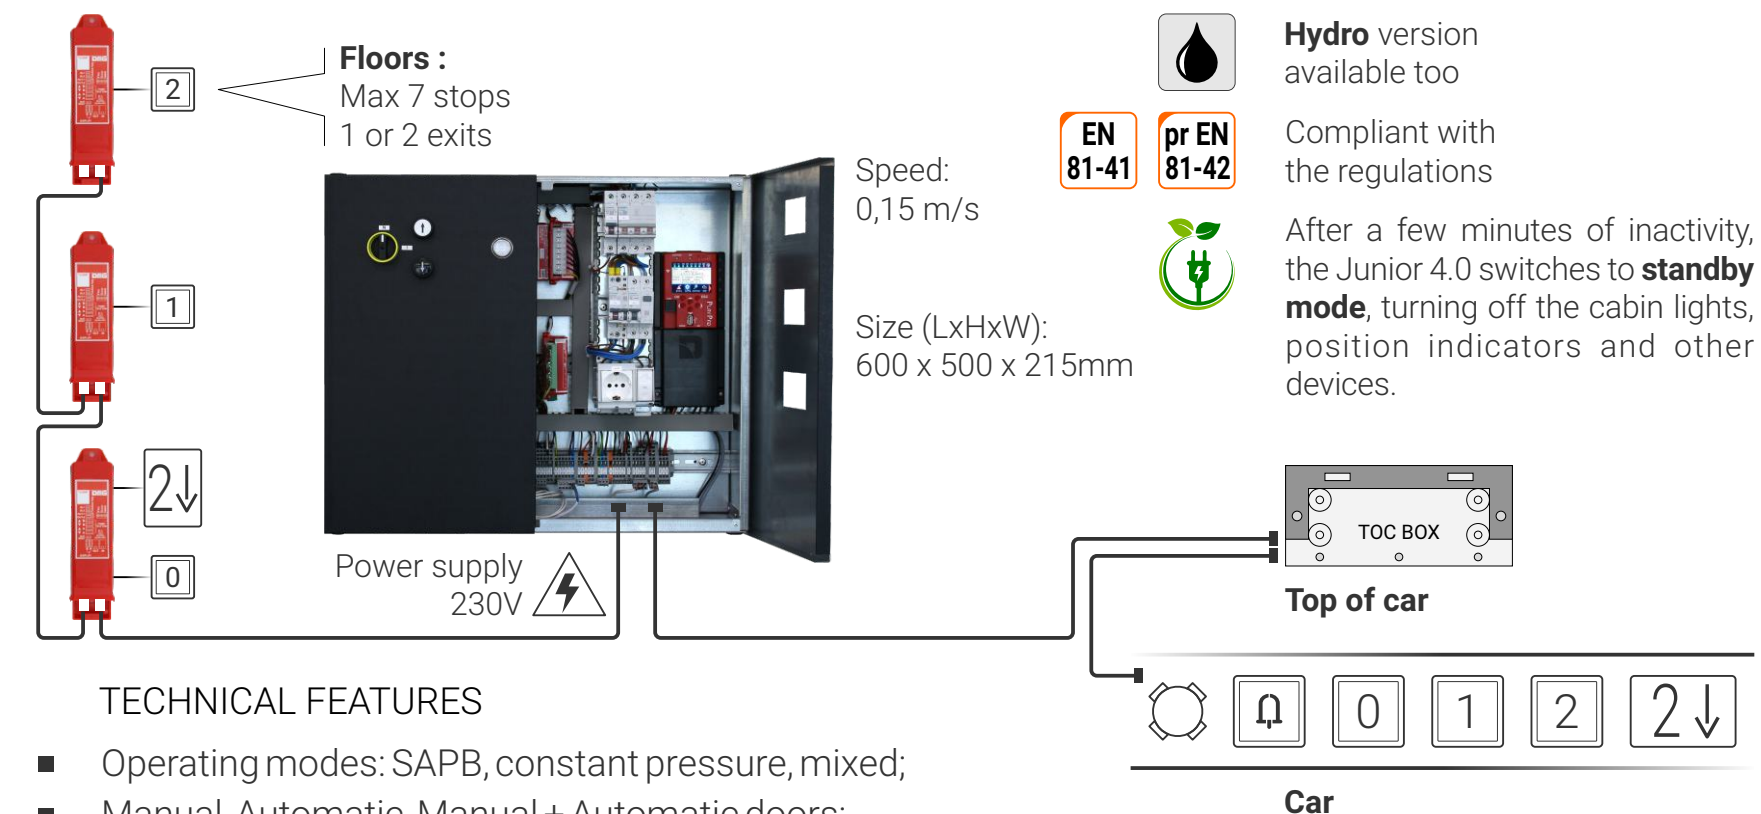

The easy and reliable DMG's solution that promotes accessibility in confined spaces and in difficult contexts. No need for a machine room. Designed to be installed inside a masonry compartment or a metal structure. Perfect for a comfortable experience, to achieve free-mobility with no architectural barriers.

The Playboard JUNIOR 4.0 is equipped with an advanced control, designed to have a user-friendly interface, which allows you to monitor and manage all functions of the lift system.

for PLATFORMS AND HOMELIFTS
