BEL AIR

Straightforward Design

Bel Air

Simplicity meets function.
Minimal lines, clean profiles,
modern look.
Design as a tailormade
method for a technological
soul.

TRIBECA

Shaped around you

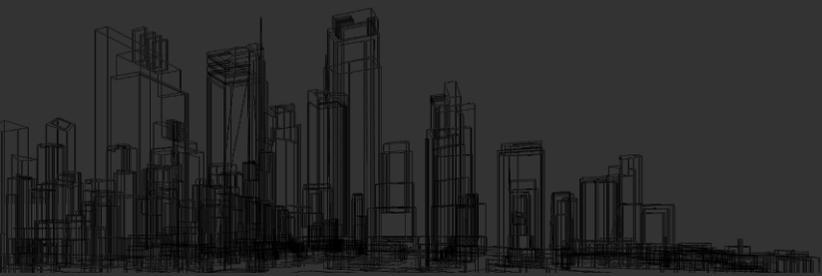

TriBeCa

Perfect lines, attention to details and global perspective: space evolves into creativity.

Proportions turn into the main ingredient, in which each element is assigned a function.

The shape is consistent with its use.

LE MARAIS

Strikingly simple, beautifully contemporary

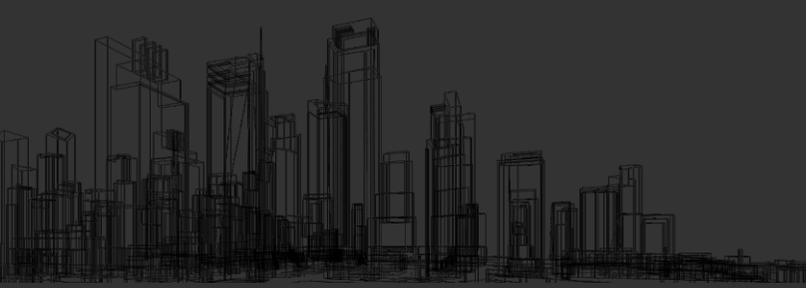

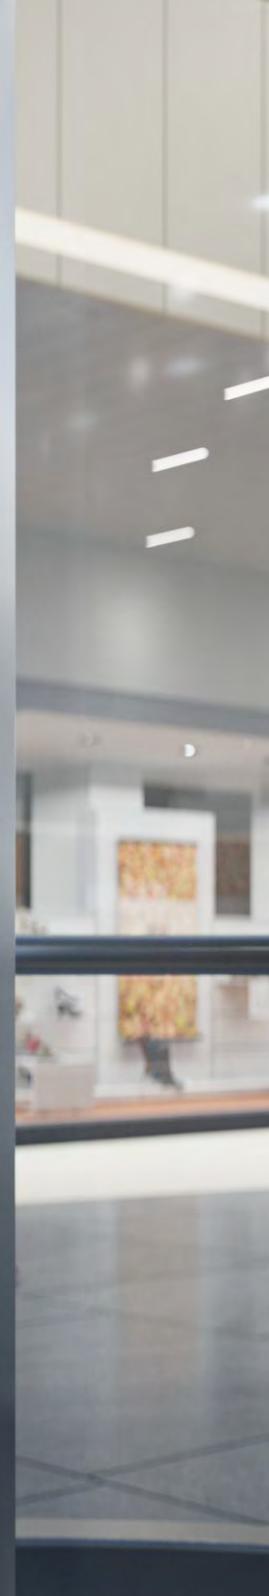

Le Marais

The flat plates, a timeless classic.

They come to life as they blend in with the surrounding elements, with their clever simplicity and contemporary flair.

This solution unites people and stands the test of time as a timeless example of good design.

OUR SUGGESTIONS

Feel it:

GLASS

Glass's AESTHETIC APPEAL lies in its ability to create visually stunning and inviting spaces, harnessing light and visual connections to enhance the overall ambiance and experience of elevator fixtures.

FEEL THE LIGHT & HARMONY

Let the light hit the glass surface and create a bright and open interior space.

Let glass reflect and refract light, adding a sense of luminosity and sparkle to your elevator.

FEEL THE ELEGANCE

This unbelievably renewable material adds a sense of modernity and elegance to your elevator design.

Its sleek and translucent appearance allows you to create striking and visually appealing car interiors.

FEEL THE SIMPLICITY

The transparent and clean lines of glass contribute to a sense of MINIMALISM and SIMPLICITY in design.

The minimalist aesthetic is favored by many for its elegance and uncluttered appeal.

FEEL THE DYNAMISM

Glass surfaces reflect the changing environment, adding DYNAMISM and INTEREST.

The reflecting power of glass seamlessly integrates users into the elevator surrounding.

Glass is synonym of DURABILITY and RESISTANCE. Glass surfaces are easy to clean, improving HEALTH and WELL-BEING for your users. Glass has a timeless quality, remaining a CLASSIC and enduring material in architecture. It has been used in construction for centuries and continues to be relevant in contemporary designs, demonstrating its lasting appeal.

Feel it:

PVD

A harmonious and timeless “dress” that gives warmth to your elevator.

A perfect match between colors and shapes.

The WARM and RICH APPEARANCE of the BRONZE COLOR, suggesting an association with antique things, and the MODERN LINES shaping the lift fixtures are the perfect MIX for your installation.

RESIDENTIAL COMPLEX

FEEL THE DURABILITY AND LONGEVITY

The PVD treatment makes the material durable, resistant to wear, abrasion, and corrosion.

FEEL THE WARMTH AND RICHNESS

Bronze is a warm and rich color with a deep golden-brown hue.

Its warm undertones evoke a sense of comfort and elegance, making it visually pleasing and eye catching.

FEEL THE STRENGTH

An archetype shape, of great visual impact.

Pure volume without frills, that stand out in terms of elegance and absolute geometry.

The strengths are gloss and scratch resistance.

FEEL THE AESTHETIC APPEAL

Bronze color has an inherent sense of sophistication and elegance.

It adds a touch of luxury and prestige to objects, giving them a timeless and classic look.

PVD treatment offers enhanced hardness and wear resistance, improved corrosion resistance, chemical and thermal stability and a more eco-friendly process than traditional electroplating methods.

Feel it:

BRASS

A UNIQUE combination of VISUAL, TACTILE, and
FUNCTIONAL qualities.

FEEL THE AESTHETIC BEAUTY

Brass has a warm, golden-brown hue that exudes elegance and sophistication.

Its rich color adds a touch of luxury and timeless charm to objects and spaces, making it visually appealing.

FEEL THE TIMELESS ELEGANCE

Brass possesses a classic, timeless quality that transcends trends and fads.

It complements various design styles, from traditional to contemporary, and adds a touch of elegance to any setting.

FEEL THE DURABILITY AND LONGEVITY

Brass is a durable material that can withstand wear and tear over time.

It is resistant to corrosion, making it suitable for both indoor and outdoor use.

FEEL THE ECO-FRIENDLY MATERIAL

Brass is a recyclable material, which makes it an environmentally friendly choice.

Its recyclability contributes to sustainable design practices and eco-conscious consumer choices.

FEEL THE VERSATILITY

Brass is a versatile material that can be crafted into various forms, from intricate decorative items to functional fixtures.
